Every station will give 1 point for QSO/SWL and HF6SONDA station will give 2 points.

QSO/SWL may be repeated on other bands or by other modes: CW, Phone (SSB, FM), Digi (RTTY, PSK), according to valid band plan.

Digital modes Digi (no matter which type) will be counted only once on a band. No points will be granted for repeating a communication on the same band with the same mode.

A free of expense diploma will be issued only in electronic version, available for all senders and listeners in the PDF format, after meeting the conditions:

- | | | | |
|--------------------------|---|----|---------|
| - Polish and EU stations | - | 18 | points, |
| - DX stations | - | 9 | points. |

The competition for senders will be evaluated independently of the award event; there will be option to repeat the contacts conducted earlier in the award event they will be evaluated separately during the contest. If not repeated, the contacts in the contest will be included in the award score. Additional 10 points will be given for collection word SONDA of station's single letter suffixes.

This year event is provided in the name of **Supporting the renewable energy**, so for the winners the stations that will obtain the highest amount of points will be provided prizes as follows:

1. place – portable solar battery in fold-out suitcase 14V/13W
2. place – solar panel 12V/30W
3. place – solar power bank 8000mAh

In the case of two stations scoring the same amount of points, the station which gathered points in a smaller amount of time win.

Administrator stations will not take part in prize competition.

Separate applications to the award and the competition will be accepted until October 15th, 2015, only in electronic form - log extract in Cabrillo format with a callsign, name and a surname and send it to e-mail address sonda.award@gmail.com. The contesters are asked to provide exact shipping address for prize to be sent. In other case the prize will be given to the next station.
